

# SET UP & PAIRING INSTRUCTIONS

# My Honda+

## Always connected

Having the My Honda+ app on your mobile is like having your car in your pocket – close at hand.

It works both ways too, so you can keep checking on your car and it will notify you of charging status, climate check and maintenance reminders.

It will also allow you to utilise useful features such as remote lock/unlock, virtual dashboard and the invite driver function.

# My Honda+

## Closer to your car

The My Honda+ app will provide you with a range of connected services to support you when you are on the move or away from your car. Let's take a closer look.

### Peace of mind

You can keep watch over your car by setting a geo-fence perimeter that will alert you if your car is moved from its designated area. If you're having trouble finding your car in a complex city centre, you can find it easily with the Car Locator, which shows you its location on a map displayed on your smartphone.

### Anywhere, anytime

You can tell your Honda e to charge the battery from anywhere with the Remote Charge; the car will notify when charging is complete. With the Remote Climate Control, you can set the temperature within the car in advance. So, if you know it's going to be a cold day in the morning, you can tell your Honda e to warm up 30 minutes before you leave home; that way you'll always be sure of a warm welcome.

# My Honda+

## Pairing instructions

Before commencing this process please ensure you have downloaded the MyHonda+ app and you have agreed to the app's terms and conditions.

After accepting the terms and conditions, your dealer will activate the embedded e-sim. Once this has been done, you will be able to complete the process of pairing your smartphone with your car.

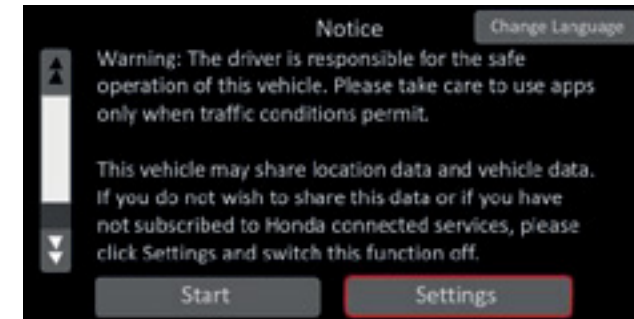

The phone and vehicle are reliant on a good internet connection so please check this before starting.

## Getting started

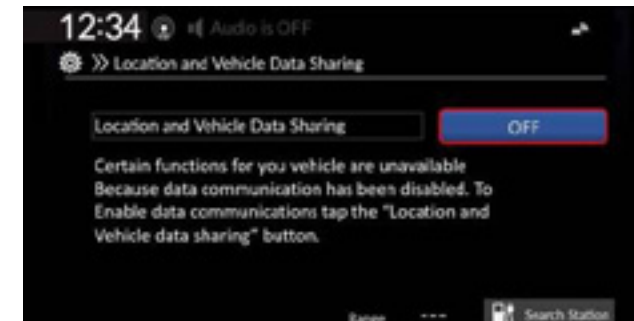

It is imperative this is completed by the owner of the vehicle, no other party should perform this on the owner's behalf.

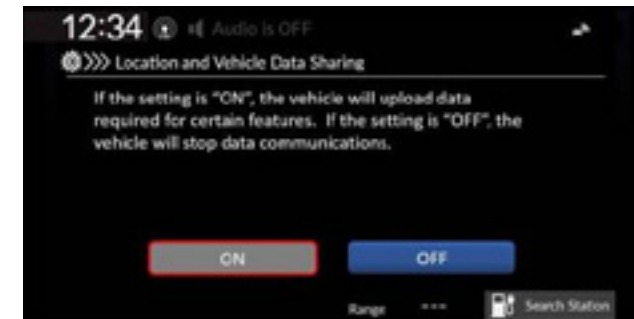

1 When the you first turn on the ignition, the message below will appear.

2 In order to activate connectivity features you need to select "settings"

3 You must then turn on "location and vehicle data sharing".

# Pairing: a step by step guide

To start the pairing process the vehicle ignition should be **OFF**.

1 Ensure ignition is switched off.

2 Open the MyHonda+ app.

3 Select 'Add your vehicle'

4 Select 'Pair with your Honda'.

5 Select 'Enter your VIN'.

6 Select 'OK' to allow My Honda+ to access the phone camera.

# Pairing: a step by step guide

7 Scan your VIN on the windscreen or enter your VIN manually. Then select 'Find my Honda'.

8 Confirm your vehicle and select 'This is my vehicle'.

9 Turn the ignition ON.

10 Select 'Generate PIN'.

# Pairing: a step by step guide

11 After a couple of minutes a notification screen will appear at the top of the screen, saying 'Confirmation of Ownership' – click this.

12 If you don't click it in time, click the small orange circle at the top of the screen – these are your notifications.

13 Click on the 'Confirmation of Ownership' line – and then click 'Open'.

# Pairing: a step by step guide

14

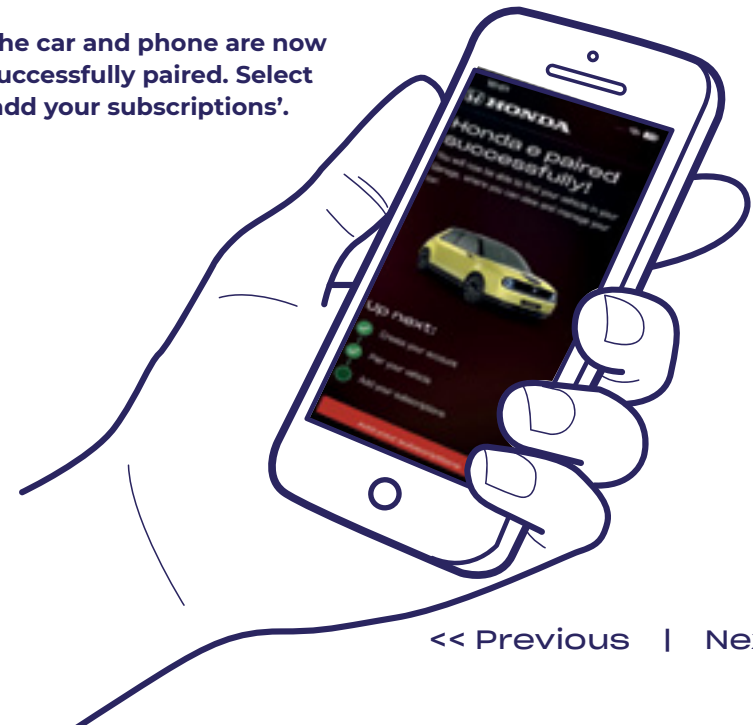

Enter the PIN displayed on the dashboard in the app and select 'Submit PIN'. The PIN is only valid for 10 minutes – if you don't complete this step in this time, you will have to start the pairing process again.

15

Name your vehicle or keep the default name and select 'Update your vehicle'.

16 The car and phone are now successfully paired. Select 'add your subscriptions'.

# Pairing: a step by step guide

17 Turn the ignition OFF and back ON again and wait 10 minutes.  
The pairing process is finalising.

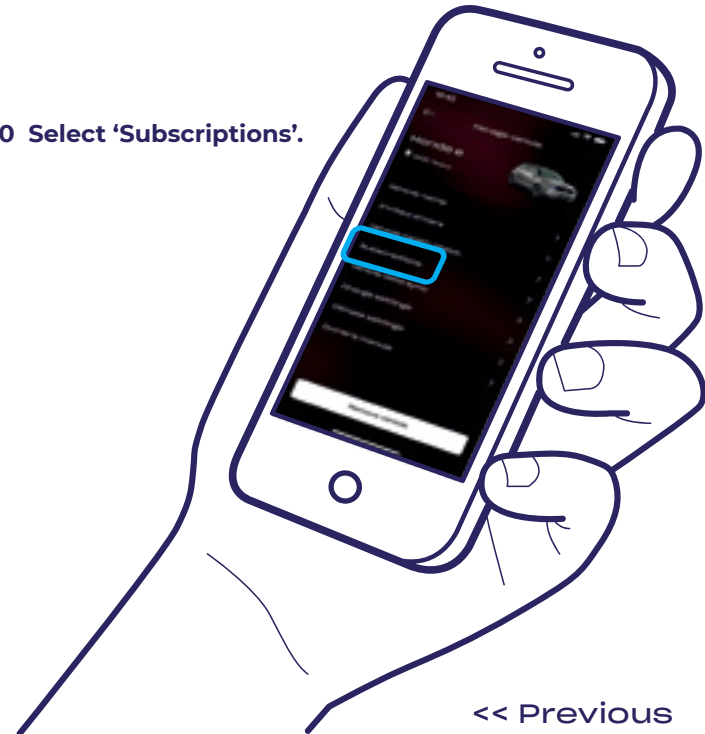

18 You can now choose the rest of your subscription packages.  
To do this, select the car icon on the top right of the screen.

19 Select 'Manage'.

20 Select 'Subscriptions'.

## Pairing: a step by step guide

21 Now you can choose all of the subscription packages you would like – scroll down and click 'pay'.

22 You will be directed to a WorldPay payment page – once this has been completed successfully, all the chosen subscription packages will be available.

## Success!

You have successfully paired the phone and car so that you can start using the My Honda+ application with all subscription packages.

Each phone/app can manage up to five vehicles in the app's 'garage'.

To add additional cars to the 'garage' please complete the following steps on the following pages.

# Adding Cars to the Garage

1 Select the small car icon  
- this is your 'garage'.

2 Select the '+' button where it  
says 'Add a car to your garage'.

3 This then takes you to this  
screen where you can start  
the pairing process again.

## Success!

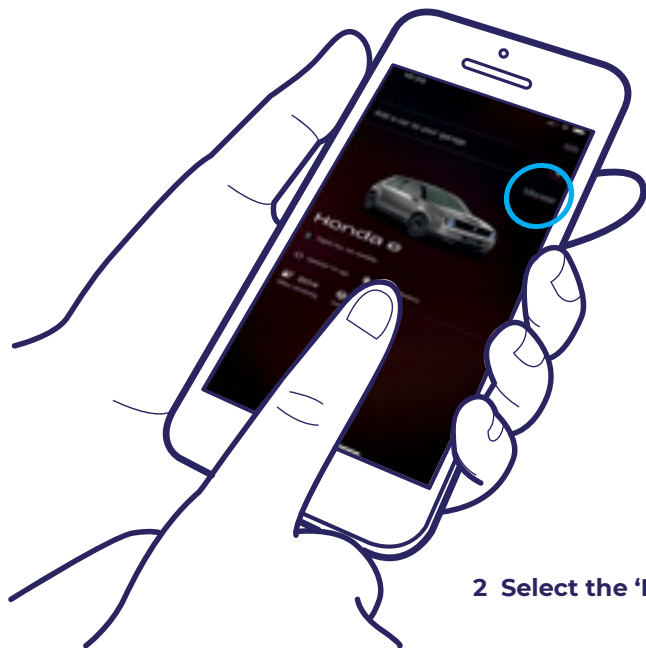

To Invite drivers to give others access to the app's functions please complete the following steps on the next page.

# Inviting Drivers

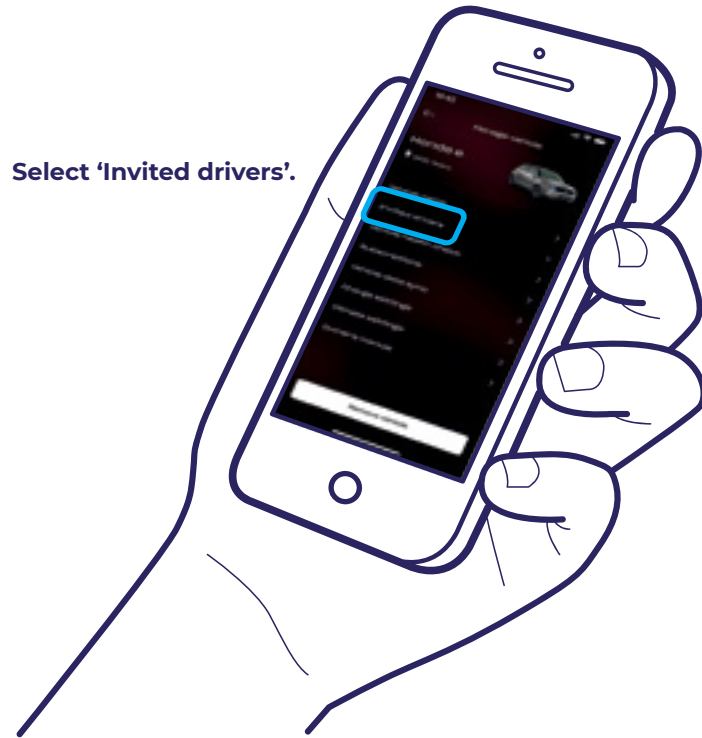

1 Select the small car icon  
- this is your 'garage'.

2 Select the 'Manage' button.

3 Select 'Invited drivers'.

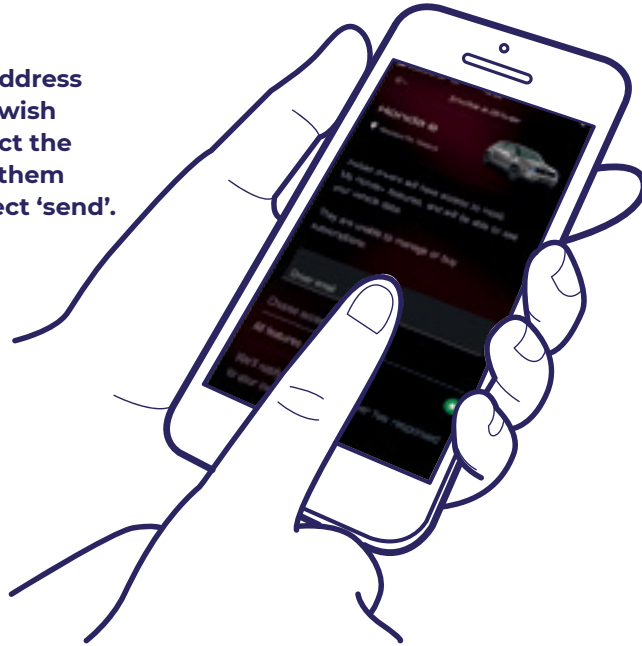

4 Select 'Invite a driver'.

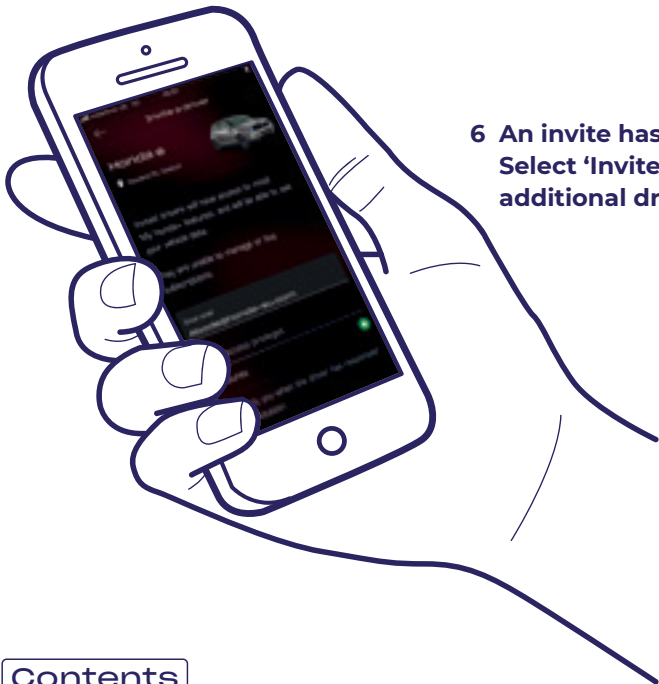

# Inviting Drivers

5 Input the email address of the driver you wish to invite and select the access you want them to have, then select 'send'.

6 An invite has been sent. Select 'Invite a driver' to invite additional drivers as required.

7 Selecting the arrow allows you to amend the driver's access, or remove the driver's access.

## Technical Support

For further information and additional technical support regarding any aspect of My Honda+ app, please contact your local Honda dealer, call 0345 200 8000 or visit [honda.co.uk](http://honda.co.uk)

# Activating the Honda Digital Key

1 Select 'Honda Digital Key Service' from subscriptions.

2 Select "Continue with this device".

3 Click your car image

# Activating the Honda Digital Key

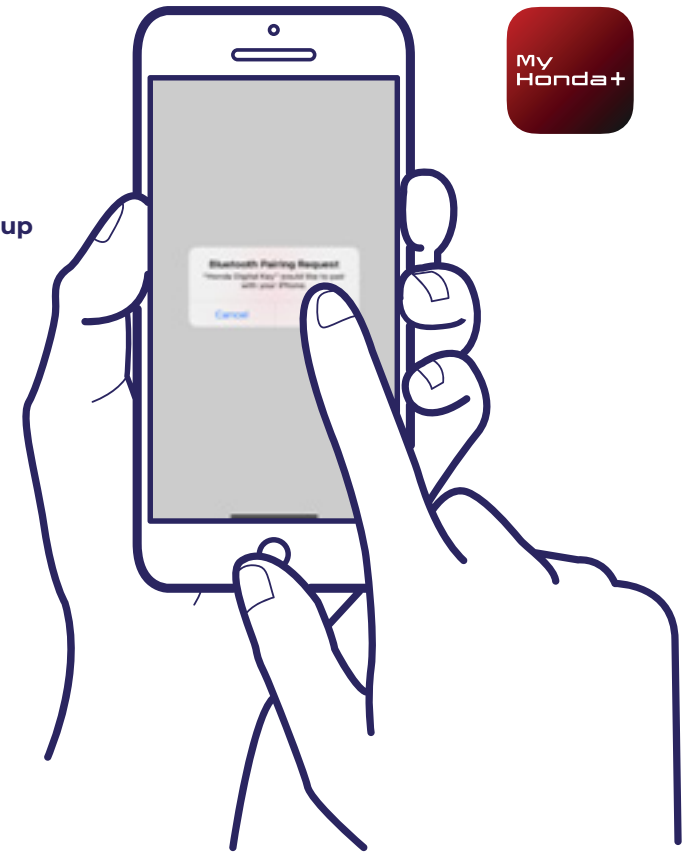

4 Ensure that Bluetooth is enabled on your phone, and your phone is near the car. Click the blue circle button in the app.

6 Activation is complete.

5 Tap 'Pair' on the pop-up

## Success!

You have successfully activated the Honda Digital Key.

For further information and additional technical support regarding any aspect of My Honda+ app, please contact your local Honda dealer, call 0345 200 8000 or visit [honda.co.uk](http://honda.co.uk)

# Using the Digital Key

1 Tap “Unlocked” to unlock the door.

2 Open the driver's door.

3 Enter the 4 digit PIN\* that is displayed on the display audio or dashboard behind the steering wheel.

\*8905 is displayed for illustrative purposes only.

# Using the Digital Key

4 Enter the PIN in the app and select "Submit PIN".

5 Depress the brake pedal and press the ignition button, and then switch on the ignition.

## Success!

You can now enjoy the benefits of the Honda Digital Key.

For further information and additional technical support regarding any aspect of My Honda+ app, please contact your local Honda dealer, call 0345 200 8000 or visit [honda.co.uk](http://honda.co.uk)

# Revoking Lock/Unlock and Digital Key

## Revoking Lock/Unlock

The remote lock/unlock functionality can be revoked in the following ways:

- 1) Cancelling your Core Connectivity subscription
- 2) Removing your vehicle from your garage
- 3) Deleting your account from the My Honda+ app
- 4) Not performing the periodic Confirmation of Ownership within 2 weeks of the notification appearing within the app
- 5) If a new owner takes ownership of the car in the case that the previous owner did not disable the telematics
- 6) If, for some special reason, your vehicle has been reset to eCall mode from normal mode remotely by dealers or by Honda

## Revoking Digital Key

The Digital Key functionality can be revoked in the following ways:

- 1) Cancelling your Honda Digital Key subscription
- 2) Removing your vehicle from your garage
