Honda Electric e:Ny1 Key Information

Fully Electric

With two different connectors, you can plug in to any charge point - whether you're at home or on the go. The high-capacity battery can reach 80% charge in approximately 45 minutes!* Adjustable regenerative braking replenishes charge as you drive, and the water cooling and heating of the battery ensures maximum charging efficiency in any weather.

Performance

With different driving modes to choose from, you can adjust your car to experience the joy of driving without compromising on efficiency. Feel the refined performance and quietness both behind the wheel and throughout the cabin, even on cobbled streets.

Technology

The generous 15.1" Honda CONNECT infotainment system in the e:Ny1 puts navigation, climate control, your favourite apps and a variety of information at your fingertips. Control the sound of the crystal clear 6-speaker surround sound system through the multi-functional steering wheel.

*Fast charge time from 10%-80% using a 100kW charge point.

Safety

Honda SENSING is an entire suite of intelligent safety and driver-assistive technologies - from sensors and cameras to an enhanced recognition system - keeping you and your passengers safe on the road, and beyond.

- Collision Mitigation Braking System
- Lane Departure Warning
- Road Departure Mitigation
- Lane Keeping Assist System
- Adaptive Cruise Control with Low-Speed Following
