Honda Civic e:Hev Key Information

Performance

A true all-rounder, the all-new Honda Civic e:HEV embodies self-charging hybrid technology at its most advanced with responsiveness and efficiency built-in.

Unlike a mild hybrid, it can run exclusively on smooth, silent electric power giving you a full hybrid experience.

As a self-charging hybrid that makes its own electricity, you'll never need to connect to the mains – it's maximum energy with minimum fuss. The all-new Civic really is the driver's hybrid.

Technology

We've packed a whole range of helpful and informative technology into the Civic e:HEV including high-resolution screens and seamless connectivity.

Safety

Equipped with the full suite of Honda SENSING safety technology, the all-new Civic includes:

- Collision Mitigation Braking System
- Collision and Rear Mitigation Throttle Control
- Road Departure Mitigation System
- Intelligent Speed Limiter
- Adaptive Cruise Control with Low-Speed Following
- Traffic Jam Assist
- Adaptive Driving Beam*
- Parking Sensor System

Full Hybrid

- 10.2" digital driver display
- 9" Honda CONNECT infotainment system
- Wireless charger for smartphone
- Premium audio with 12 Bose speakers*
- Rear parking camera

* Available on Advance grade only.

Disclaimer: The information provided in this Guide is for general information purposes only and is correct to the best of our knowledge at the date of publication (April 2024). While we have made every effort to ensure the information in this document is accurate, neither Honda (UK) nor the author can be held responsible for any actions or consequences arising from acting on, or refraining from, taking any action as a result of reading this. The fuel consumption you achieve under real life driving conditions, and CO₂ produced, will depend upon a number of factors including the accessories fitted after registration, variations in driving styles, weather conditions and vehicle load. Figures stated are based on a standardised test cycle and may not reflect real world driving, therefore they should be used for comparison purposes only. Customers should only compare vehicles tested to the same technical procedures. There is a new test for fuel consumption and CO₂ figures. You can find out more about the changes brought in by WLTP at <http://wltfacts.eu/>.
